

# THEATER SESSIONS

TUESDAY, MAY 21

**BB Energy** \*

**1:00 p.m.**

## **Supply Side Perspective for Military Bulk Fuels**

The global physical fuel production and supply landscape evolves rapidly in reaction to international policy and market forces. How does this impact military bulk fuel supplier capacity, capabilities and responsiveness?

**Presenter:** Shelly Ogilvie, Business Development

**BB Energy**

**2:00 p.m.**

## **The Shale Revolution – The Tectonic Shift in The Global Hydrocarbons Market From The East to The West, at Light Speed – And Importantly what it means to the Federal Government**

The U.S. is the emergent hydrocarbon superpower of the world. Join us for an informative discussion on where we have been, where we are, and where things are going in electric power and natural gas as we examine the Shale Revolution and what it means to U.S. business and industry.

**Presenter:** Brian Habacivch, Principal, Commodities Management Group

**Constellation**

**3:00 p.m.**

## **Efficiency Increase in Maintenance and Support**

Digitalization is enabling the implementation of new techniques to improve the efficiency and quality of equipment and system maintenance. Actemium will present examples of how this is already being achieved in industry.

**Presenter:** Jorge Rivero – Director, Special Technologies & North America

**Actemium Cegelec**
